Subject: CA Clinical Laboratory License # COS 800090

Dear Dr. Kussick,

Your California Out-of-State laboratory license renewal application and supporting documents were received on September 12, 2017. Since the application and fee were received prior to the expiration date, the laboratory remains in good standing while the renewal materials are being processed.

During the renewal review process, our protocol is to allow at least 60 days or more from the expiration date to process and approve the license. The license is considered valid during this process.

Sincerely,

Martha Obeso,  
Section Chief, Laboratory Licensing and Registration
